Nota's: CPP = Consumptie- en productiepatronen, Soc = Sociaal, Gov = Governance.

1 - De lijst met SDGs staat in tabel 1.

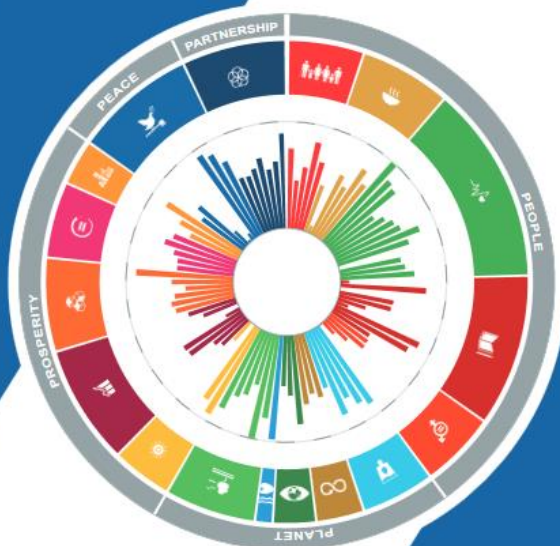

2 - Indicatoren waarvoor de voortzetting van de trend berekend werd op basis van bestaande FPB-projecties.

## MEASURING DISTANCE TO THE SDG TARGETS

An assessment of where OECD countries stand

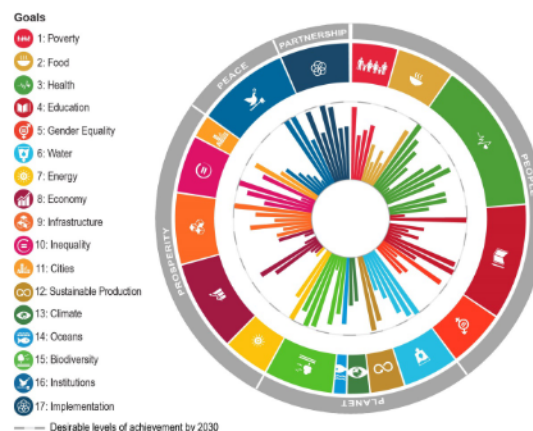

June 2017

### MEASURING DISTANCE TO THE SDGs TARGETS – BELGIUM

Based on the 126 available indicators allowing coverage of 93 of the 169 SDG targets, Belgium has currently achieved 11 of the 2030 targets. The remaining distances to achieve the targets are small in several areas, but challenges remain (Figure 1).

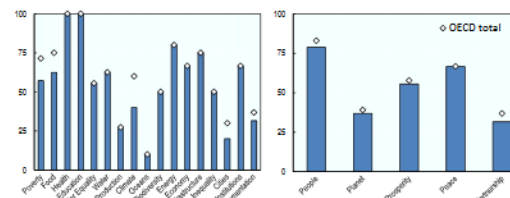

Figure 1. Belgium's current distance from achieving SDGs' 2030 targets

Note: The chart shows how far Belgium has already progressed towards each available target. The longer the bars the shorter the distance is to be travelled by 2030. Targets are clustered by goal, and goals are clustered by the "5Ps" of the 2030 Agenda (outer circle).

These results rely on the best comparative indicators currently available in various OECD and UN databases, in line with the UN global indicator framework. However, a number of important data gaps need to be addressed to enable a more complete assessment. For Belgium, health and education are the only goals with full target coverage while sustainable production, oceans and cities have less than 30% of their targets covered (Figure 2).

Figure 2. The statistical agenda ahead: Belgium's data coverage  
Percentage of targets for which there is at least one indicator by goals and the 5Ps of the 2030 Agenda, compared with the OECD total

Note: The global indicator framework developed by the UN Inter-Agency and Expert Group on SDG Indicators and adopted by the UN Statistical Commission in March 2017 agreed upon 232 indicators to measure the 169 targets. Reflecting data availability, this study considers 131 indicators covering 98 targets.

## BELGIUM

Performance by Indicator

Indicator	Value	Rating	Indicator	Value	Rating
SDG1			Logistics performance index: Quality of trade and transport-related infrastructure (1=low to 5=high)	4.1	+
Poverty headcount ratio at \$1.90/day (% population)	0.3	+	Q5 University Ranking, Average score of top 3 universities (0-100)	66.2	+
Projected poverty headcount ratio at \$1.90/day in 2030 (% population)	0.3	+	Number of scientific and technical journal articles (per capita)	1.5	+
Poverty rate after taxes and transfers, Poverty line 50% (% population)	10	+	Research and development expenditure (% GDP)	2.5	+
SDG2			Research and development researchers (per 1000 employed)	12	+
Prevalence of undernourishment (% population)	1.2	+	Patent applications filed under the PCT in the inventor's country of residence (per million population)	41.8	+
Prevalence of stunting (low height-for-age) in children under 5 years of age (%)	2.6	+	SDG10		
Prevalence of wasting in children under 5 years of age (%)	0.7	+	Gini index (0-100)	27.6	+
Prevalence of obesity, BMI ≥ 30 (% adult population)	20.2	+	Palma ratio	0.9	+
Cereal yield (t/ha)	9.5	+	PSA Social Justice Index (0-10)	4.1	+
Sustainable Nitrogen Management Index	na	+	SDG11		
SDG3			Annual mean concentration of particulate matter of less than 2.5 microns of diameter (PM2.5) in urban areas (µg/m³)	15.3	+
Maternal mortality rate (per 100,000 live births)	7	+	Improved water source, piped (% urban population with access)	100	+
Neonatal mortality rate (per 1,000 live births)	2.2	+	Median of the rent burden (private market and subsidized rent) as a share of disposable income (%)	26.8	+
Mortality rate, under-5 (per 1,000 live births)	4.1	+	SDG12		
Incidence of tuberculosis (per 100,000 people)	9.4	+	E-waste generated (kg/capita)	21.4	+
HIV prevalence (per 1,000)	0	+	Percentage of anthropogenic wastewater that receives treatment (%)	89.8	+
Age-standardized death rate due to cardiovascular disease, cancer, diabetes, and chronic respiratory disease in populations age 30-70 years, per 100,000 population	12.2	+	Production-based SO <sub>2</sub> emissions (kg/capita)	11.2	+
Age-standardized death rate attributable to household air pollution and ambient air pollution, per 100,000 population	30	+	Net imported SO <sub>2</sub> emissions (kg/capita)	30.1	+
Traffic deaths rate (per 100,000 people)	6.7	+	Reactive nitrogen production footprint (kg/capita)	40.9	+
Healthy Life Expectancy at birth (years)	71.1	+	Net imported emissions of reactive nitrogen (kg/capita)	148.3	+
Adolescent fertility rate (births per 1,000 women ages 15-19)	8.1	+	Non-recycled Municipal Solid Waste (MSW) in kg/person/year times recycling rate	0.9	+
Proportion of births attended by skilled health personnel	na	+	SDG13		
Percentage of surviving infants who received 2 WHO-recommended vaccines (%)	96	+	Energy-related CO <sub>2</sub> emissions per capita (tCO <sub>2</sub> /capita)	8.4	+
Universal Health Coverage Tracer Index (0-100)	92.4	+	Imported CO <sub>2</sub> emissions, technology-adjusted (tCO <sub>2</sub> /capita)	0.7	+
Subjective Wellbeing (average ladder score, 0-10)	6.9	+	Climate Change Vulnerability Index	0.1	+
SDG4			Effective Carbon Rate from all non-road energy, excluding emissions from biomass (€/tCO <sub>2</sub> )	7.6	+
Net primary enrolment rate (%)	98.8	+	SDG14		
Expected years of schooling (years)	11.4	+	Mean area that is protected in marine sites important to biodiversity (%)	88.3	+
Literacy rate of 15-24 year olds, both sexes (%)	na	+	Ocean Health Index - Biodiversity (0-100)	96.4	+
Population age 25-64 with tertiary education (%)	36.9	+	Ocean Health Index - Clean Waters (0-100)	32.4	+
PSA score (0-600)	502.5	+	Ocean Health Index - Fisheries (0-100)	65.1	+
SDG5			Percentage of Fish Stocks overexploited or collapsed by EEZ (%)	na	+
Estimated demand for contraception that is unmet (% women married or in union, ages 15-49)	97	+	SDG15		
Ratio of female to male mean years of schooling of population age 25 and above	80.3	+	Mean area that is protected in terrestrial sites important to biodiversity (%)	79.4	+
Ratio of female to male labour force participation rate	39.3	+	Mean area that is protected in freshwater sites important to biodiversity (%)	89.7	+
Proportion of seats held by women in national parliaments (%)	3.3	+	Red List Index of species survival (0-1)	1	+
Gender wage gap (Total, % male median wage)	3.3	+	Annual change in forest area (%)	7.7	+
SDG6			Imported biodiversity impacts (species lost per million people)	1.1	+
Access to improved water source (% population)	100	+	SDG16		
Access to improved sanitation facilities (% population)	99.5	+	Homicides (per 100,000 people)	1.8	+
Freshwater withdrawal as % total renewable water resources	33.7	+	Prison population (per 100,000 people)	105	+
Imported groundwater depletion (m³/year/capita)	15.7	+	Proportion of the population who feel safe walking alone at night in the city or area where they live (%)	70	+
SDG7			Government Efficiency (0-7)	4.1	+
Access to electricity (% population)	100	+	Property Rights (0-7)	5.8	+
Access to non-solid fuels (% population)	100	+	Proportion of children under 5 years of age whose births have been registered with a civil authority, by age (%)	100	+
CO <sub>2</sub> emissions from fuel combustion / electricity output (MCO <sub>2</sub> /TWh)	1.3	+	Corruption Perception Index (0-100)	77	+
Share of renewable energy in total final energy consumption (%)	7.4	+	Slavery score (0-100)	100	+
SDG8			Transfers of major conventional weapons (exports) (constant 1990 US\$ million per 100,000 people)	10	+
Adjusted GDP Growth (%)	-1.4	+	SDG17		
Percentage of children 5-14 years old involved in child labour	0	+	Government Health and Education spending (% GDP)	17	+
Adults (15 years and older) with an account at a bank or other financial institution or with a mobile-money-service provider (%)	98	+	For high-income and all OECD DAC countries: International concessional public finance, including official development assistance (% GNI) for all other countries: Tax revenue (% GDP)	0.42	+

## CCI FLANDERS CHARTER SUSTAINABLE ENTREPRENEURSHIP

Together for  
a sustainable  
future

**Sustainable Development is no longer the playground of idealists.** It encompasses dealing with scarce resources, sustainable energy, investing in human capital, meeting the needs of tomorrow ... **Sustainable development means sustainable profit in many ways.**

**CCI Flanders wants to help businesses to embed sustainability into their DNA.** By participating in the CCI Flanders Charter Sustainable Entrepreneurship, which will be rolled out throughout the whole of Flanders from January 2017 onwards, you can work on various sustainable topics tailored to the needs of your company.

**Participating in this Charter also means developing the international reputation of your company, as you carry out different actions within the seventeen UN Sustainable Development Goals (SDGs).** CCI Flanders is collaborating with Cifal Flanders / Unitar, an international training centre which focuses on sustainable management and which may offer the companies the internationally recognized UNITAR certificate.

So why not work towards sustainable development, sustainable profit and international recognition?  
More information or an informal meeting?  
[vcdo@voka.be](mailto:vcdo@voka.be) [www.voka.be/vcdo](http://www.voka.be/vcdo)

### WHY PARTICIPATE?

- ✓ Lead the way in an increasing international trend
- ✓ Work on sustainable profit
- ✓ Save costs
- ✓ Boost your reputation: with employees, customers and partners
- ✓ Strengthen your international image
- ✓ Receive expert advice tailored to your business
- ✓ Sign up to an inspiration programme of continuous improvement
- ✓ Work in line with social, welfare and environmental legislation
- ✓ Receive an annual evaluation

## CCI FLANDERS CHARTER SUSTAINABLE ENTREPRENEURSHIP

Together for  
a sustainable  
future

### HOW DOES THE PROGRAMME WORK?

Over a one year period, you will undertake a number of activities linked to the UN's seventeen sustainable development goals. You will be able to make use of advice and tips from our experts. At the end of the year, you will be able to highlight your improvements to a team of independent experts. If you pass the evaluation, you will receive the CCI Flanders Charter Sustainable Entrepreneurship.

Companies that carry out actions for three consecutive years within each of the seventeen UN sustainability goals will receive the internationally recognised UNITAR certificate, linked to the UN from Cifal Flanders / UNITAR.

### PARTICIPATION FEE

	Voka-member	Non-member
< 25 emp. /non-profit	€ 1500	€ 1800
25 - 50 employees	€ 2000	€ 2400
51 - 250 employees	€ 2500	€ 3000
> 250 employees	€ 3000	€ 3500

### THE MAIN THEMES

- ✓ Integrating sustainability into your strategies
- ✓ Corporate governance
- ✓ Clear communication
- ✓ Quality of the working environment
- ✓ Talent development
- ✓ Risk management
- ✓ Energy efficiency
- ✓ Quality of the (living) environment
- ✓ Sustainable resource management
- ✓ Mobility
- ✓ Social engagement

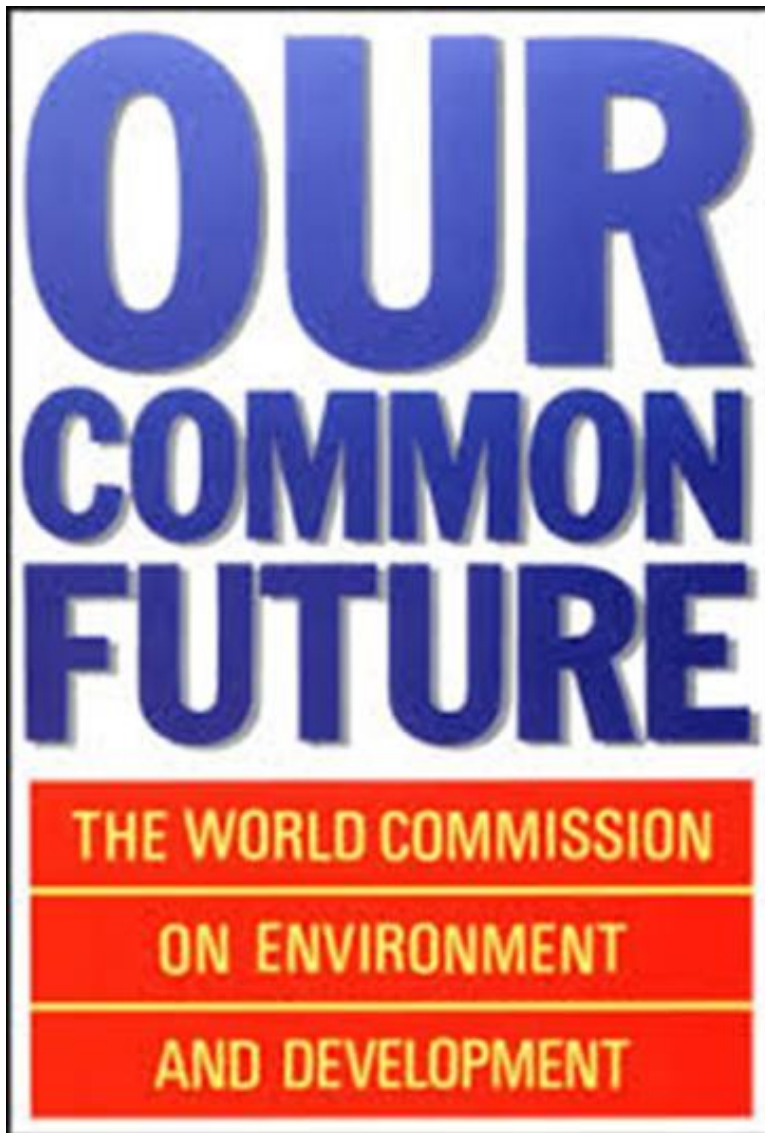

# GOOD LIFE GOALS

DRAFT

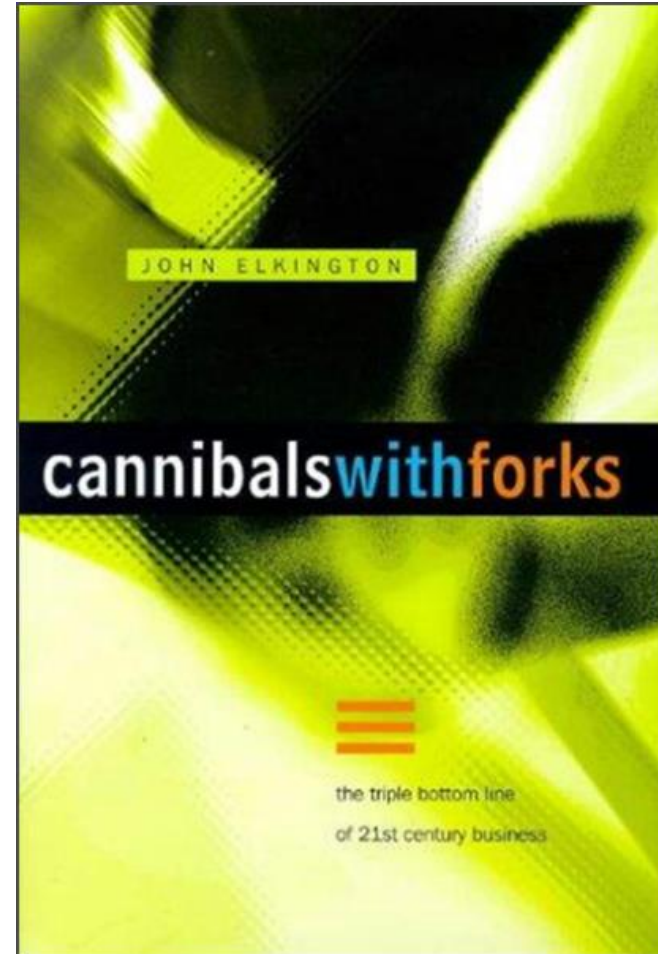

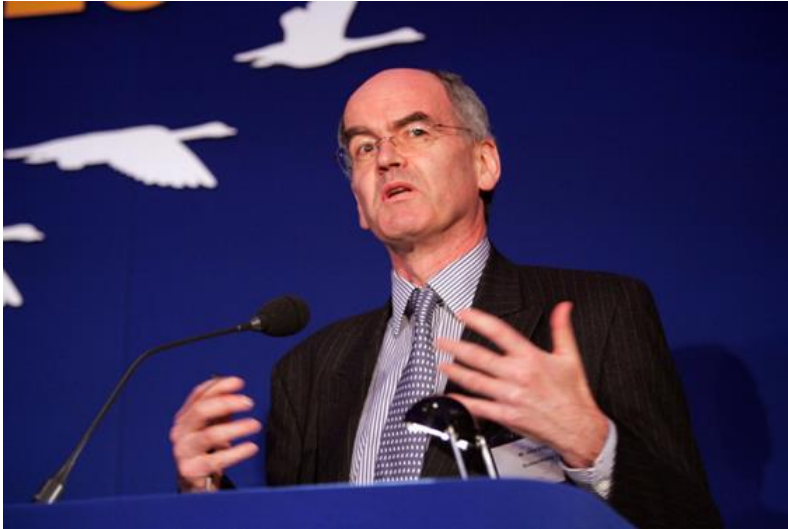

# SUSTAINABLE DEVELOPMENT

Sustainable development is development that meets the needs of the present without compromising the ability of future generations to meet their own needs.

## Agenda 2030 and sustainable development goals

Out of 17 sustainable development goals (SDGs) and 169 goal targets, we contribute to 11 SDGs and 30 goal targets.

1.5 By 2030, build the resilience of the poor and those in vulnerable situations and reduce their exposure and vulnerability to climate-related extreme events and other economic, social and environmental shocks and disasters.

11.1 By 2030, ensure access for all to adequate, safe and affordable housing and basic services and upgrade slums.  
11.2 By 2030, provide access to safe, affordable, accessible and sustainable transport systems for all, improving road safety, notably by expanding public transport, with special attention to the needs of those in vulnerable situations, women, children, persons with disabilities and older persons.  
11.3 By 2030, enhance inclusive and sustainable urbanization and capacity for participatory, integrated and sustainable human settlement planning and management in all countries.  
11.5 By 2030, significantly reduce the number of deaths and the number of people affected and substantially decrease the direct economic losses relative to global gross domestic product caused by disasters, including water-related disasters, with a focus on protecting the poor and people in vulnerable situations.  
11.6 By 2030, reduce the adverse per capita environmental impact of cities, including by paying special attention to air quality and municipal and other waste management.  
11.7 By 2030, provide universal access to safe, inclusive and accessible, green and public spaces, in particular for women and children, older persons and persons with disabilities.  
11.a Support positive economic, social and environmental links between urban, peri-urban and rural areas by strengthening national and regional development planning.  
11.b By 2020, substantially increase the number of cities and human settlements adopting and implementing integrated policies and plans towards inclusion, resource efficiency, mitigation and adaptation to climate change, resilience to disasters, and develop and implement, in line with the Sendai Framework for Disaster Risk Reduction 2015–2030, holistic disaster risk management at all levels.

16.7 Ensure responsive, inclusive, participatory and representative decision-making at all levels.

9.1 Develop quality, reliable, sustainable and resilient infrastructure, including regional and transborder infrastructure, to support economic development and human well-being, with a focus on affordable and equitable access for all.  
9.4 By 2030, upgrade infrastructure and retrofit industries to make them sustainable, with increased resource-use efficiency and greater adoption of clean and environmentally sound technologies and industrial processes, with all countries taking action in accordance with their respective capabilities.

17.14 Enhance policy coherence for sustainable development.  
17.17 Encourage and promote effective public, public-private and civil society partnerships, building on the experience and resourcing strategies of partnerships.  
17.18 By 2020, enhance capacity-building support to developing countries, including for least developed countries and small island developing States, to increase significantly the availability of high-quality, timely and reliable data disaggregated by income, gender, age, race, ethnicity, migratory status, disability, geographic location and other characteristics relevant in national contexts.

12.2 By 2030, achieve the sustainable management and efficient use of natural Resources.  
12.4 By 2020, achieve the environmentally sound management of chemicals and all wastes throughout their life cycle, in accordance with agreed international frameworks, and significantly reduce their release to air, water and soil in order to minimize their adverse impacts on human health and the environment.  
12.5 By 2030, substantially reduce waste generation through prevention, reduction, recycling and reuse.  
12.8 By 2030, ensure that people everywhere have the relevant information and awareness for sustainable development and lifestyles in harmony with nature.  
12.a Support developing countries to strengthen their scientific and technological capacity to move towards more sustainable patterns of consumption and production.

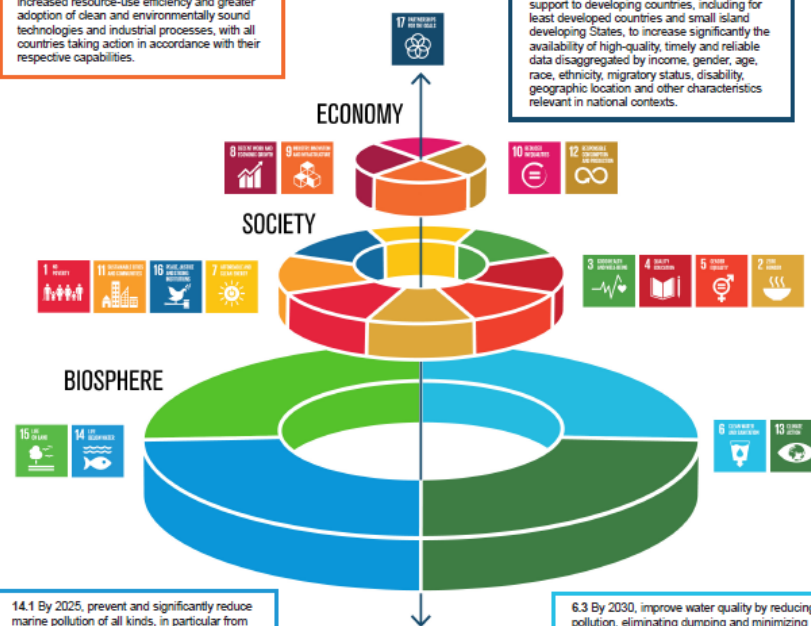

3.9 By 2030, substantially reduce the number of deaths and illnesses from hazardous chemicals and air, water and soil pollution and contamination.

13.1 Strengthen resilience and adaptive capacity to climate-related hazards and natural disasters in all countries.  
13.2 Integrate climate change measures into national policies, strategies and planning.  
13.3 Improve education, awareness-raising and human and institutional capacity on climate change mitigation, adaptation, impact reduction and early warning.  
13.b Promote mechanisms for raising capacity for effective climate change-related planning and management in least developed countries and small island developing States, including focusing on women, youth and local and marginalized communities.

14.1 By 2025, prevent and significantly reduce marine pollution of all kinds, in particular from land-based activities, including marine debris and nutrient pollution.  
14.2 By 2020, sustainably manage and protect marine and coastal ecosystems to avoid significant adverse impacts, including by strengthening their resilience, and take action for their restoration in order to achieve healthy and productive oceans.

6.3 By 2030, improve water quality by reducing pollution, eliminating dumping and minimizing release of hazardous chemicals and materials, halving the proportion of untreated wastewater and substantially increasing recycling and safe reuse globally.  
6.6 By 2020, protect and restore water-related ecosystems, including mountains, forests, wetlands, rivers, aquifers and lakes.

15.9 By 2020, integrate ecosystem and biodiversity values into national and local planning, development processes, poverty reduction strategies and accounts.

Bron: Paredis et al. (2009), op basis van Geels (2005)

1. Use Agenda 2030 to start campaigns
2. Use Agenda 2030 to define actions and link your business
3. Use Agenda 2030 to shape your own strategy (materiality) – define the negative and positive impact on the SDGs
4. Use Agenda 2030 as a transformation tool (change management) - how to transform your own organization to become future-proof
5. Use Agenda 2030 as a transition agenda - to question the context in which your organization operates

## Quadruple Helix Innovation

Government, Academia, Industry and Citizens collaborating together to drive structural changes far beyond the scope of any one organization could achieve on it's own

# HUMAN RIGHTS

"The 2030 Agenda for Sustainable Development is a major step forward for human rights.

The Agenda reminds us that human rights include the right to development, and that society is only as strong as its weakest member.

The integrated, indivisible and universal nature of the 17 Sustainable Development Goals is deeply rooted in universal human rights."

**Ban Ki-moon**

Secretary-General of the United Nations  
at #HRC31 in Geneva

## Human Rights & SDGs

“156 of the 169 targets are linked with the human rights”

Sustainable Development Goals		Related human rights *
<b>1</b> NO POVERTY 	<b>End poverty in all its forms everywhere</b>  Targets include eradicating extreme poverty; implementing social protection measures; and ensuring equal access of men and women to economic resources.	<ul style="list-style-type: none"> <li>• <b>Right to an adequate standard of living</b> [UDHR art. 25; ICESCR art. 11; CRC art. 27]</li> <li>• <b>Right to social security</b> [UDHR art. 22; ICESCR art. 9; CRPD art. 28; CRC art. 26]</li> <li>• <b>Equal rights of women in economic life</b> [CEDAW arts. 11, 13, 14(2)(g), 15(2), 16(1)]</li> </ul>
<b>2</b> ZERO HUNGER 	<b>End hunger, achieve food security and improved nutrition, and promote sustainable agriculture</b>  Targets include ending hunger and malnutrition; improving agricultural production, sustainable and resilient food production; correcting trade distortions, and ensuring functioning food commodity markets.	<ul style="list-style-type: none"> <li>• <b>Right to adequate food</b> [UDHR art. 25; ICESCR art. 11; CRC art. 24(2)(c)]</li> <li>• <b>International cooperation</b>, including ensuring equitable distribution of world food supplies [UDHR art. 28; ICESCR arts. 2(1), 11(2)]</li> </ul>
<b>3</b> GOOD HEALTH AND WELL-BEING 	<b>Ensure healthy lives and promote well – being for all at all ages</b>  Targets include reducing maternal mortality; ending preventable child deaths; ending or reducing AIDS other diseases; universal health coverage, affordable essential medicines, sexual and reproductive health care; vaccine research, and access to medicines.	<ul style="list-style-type: none"> <li>• <b>Right to life</b> [UDHR art. 3; ICCPR art. 6], particularly of women [CEDAW art. 12] and children [CRC art. 6]</li> <li>• <b>Right to health</b> [UDHR art. 25; ICESCR art. 12], particularly of women [CEDAW art. 12]; and children [CRC art.24]</li> <li>• <b>Special protection for mothers and children</b> [ICESCR art.10]</li> <li>• <b>Right to enjoy the benefits of scientific progress and its application</b> [UDHR art. 27; ICESCR art. 15(1)(b)]</li> <li>• <b>International cooperation</b> [UDHR art. 28, DRTD arts. 3-4], particularly in relation to the right to health and children's rights [ICESCR art. 2(1); CRC art. 4]</li> </ul>
